Toronto, ON

Dear sir/madam,

During the course of construction of this project, personnel from our firm visited the site in order to carry out general review in accordance with the performance standards of the Ontario Association of Architects. On the basis of our review, we have determined that the construction has been carried out in general conformity with the Architectural documents which formed the basis for the issuance of the building permit.

Based on our periodic site visits and our reported deficiencies rectified by the contractor, it is our opinion that the building noted above has been completed in general conformance with the approved permit drawings and specifications and with the applicable sections of the Ontario Building Code.

Yours truly,

Peter Pomeroy
